# ANALYSIS-Huawei patent case shows Chinese courts' rising clout

Jan Wolfe

Published 4:01 PM ET Mon, 11 June 2018

June 11 (Reuters) - A smartphone patent fight between Huawei Technologies Co Ltd and Samsung Electronics Co could reach a global resolution through a ruling by a Chinese court, a development that reflects the growing attractiveness of China as a quick and effective forum for intellectual property disputes.

Richard Vary, a lawyer in London and former head of litigation for Nokia, said Chinese courts have risen from being the "fourth or fifth" jurisdiction a global company would consider for patent litigation.

"Now it is the second after the U.S. and has perhaps even moved up ahead of the U.S. so that now you consider it your key forum," Vary said.
