Community Plant Variety Office

CPVO Variety Finder database

CPVO Variety Finder

The CPVO Variety Finder, maintained by the CPVO contains information on registers of more than 60 countries with a general search tool. It also includes a similarity search tool to test the suitability of denominations.

Access to the [CPVO Variety Finder database](http://cpvo.europa.eu/en/cpvo-variety-finder).

<http://cpvo.europa.eu/en/cpvo-variety-finder>

It contains:

- > Plant Breeders' Rights data:
 - Community Plant Variety Rights data published in the Official gazette of the CPVO (QZ PBR)
 - National data of protected varieties (PBR)
- > National listings data and common catalogue data (NLI)
- > Some commercial registers (COM)
- > EU registered trademarks for class 31 (EUTM)
- > Plant Patents (PLP)
- > Other types of registers codified as 'ZZZ Other registers' or 'REF reference List'

Denomination list returned by the test

Test status: Test performed.

The similarity score is an index computed to sort the results of the variety denomination test according to similarity amongst the denominations returned in the "Results of denomination test" list. It constitutes by no means a basis for the decision to accept, or reject a tested denomination proposal.
