The purpose of these guidelines ("Test Guidelines") is to elaborate the principles contained in the General Introduction (document TG/1/2), and its associated TGP documents, into detailed practical guidance for the harmonized examination of distinctness, uniformity and stability (DUS) and, in particular, to identify appropriate characteristics for the examination of DUS and production of harmonized variety descriptions.

ASSOCIATED DOCUMENTS
These Test Guidelines should be read in conjunction with the General Introduction and its associated TGP documents.

The flowers above have a so-called *big lip*, meaning that the apical lobe and the lateral lobes are fused. In this case, make a remark about the big lip in the remarks section and the shape of the lateral lobes become ‘not applicable’.

Also characteristics 75, 76, 77, 87, 88, 89, 90, 91, 92, 93 and 94 become ‘not applicable’.
